Low Profile GRP Covers

Suitable for extreme environmental loadings and high levels of chemical and toxic constituents.

Covers are suitable for spans up to 20m (65') and are ideal for installation under existing structures or where planning rules dictate a low profile requirement.

- Full design service is always part of our supply (including FEA if required)
- Manufactured using Chemical Resistant, Fresh Water or High Temperature Resins
- Full conformity with WIMES
- Central panels can be modified to accommodate a central scraper arrangement
- Suitable for extreme environments and heavy loadings
- Areas where personnel access is required are treated with a high quality non-slip finish and will be fitted with GMS or GRP handrails
- Personnel access hatches
- Covers can be fully insulated
